

"2025 Japan World Exposition" Project for Participating Countries

We will provide comfortable accommodation facilities, convenient living support, and a fun place for international exchange to the people from each country who will be operating Osaka Kansai Expo 2025. And all at a LOW PRICE!

EXPO 2025

"SEC Project" started

Stay Enjoy Communication

Nichireku Co., Ltd. (Headquarters: Ikeda City, Osaka Prefecture / Representative Director: Kazuhiko Tabuchi) will be holding a 184-day event from April 13th, 2025 at the 2025 Japan International Exposition (Osaka-Kansai Expo). For the participating countries and organizations, we will provide three services based on our own ideas and plans based on our achievements and experiences: "Accommodation = Stay", "Life convenience support = Enjoy", and "Cultural exchange = Communication". We will start the SEC project.

1. Stay

Providing reasonably priced "accommodation facilities" where you can comfortably stay for several months.

-We will prepare vacant houses, vacant rooms, private lodging properties, etc. that are located within an hour from the venue so that you can select them according to the number of guests.

-We support you in selecting a property, making a contract, paying a security deposit, rent, etc., while you are in your home country, with web services and skilled Japanese-English bilingual operators.

2. Enjoy

Providing “LaaS = Life as a Service” to support convenience during stay.

-We provide shopping for clothing, food and shelter, various restaurants, off-time leisure, and information on medical institutions and crime prevention/disaster prevention in case of emergencies.

-We aim to create a community with encouraging people by providing information on the trends of compatriots from participating countries who live near the area, and information on stores that are frequented by Japanese people who are interested in participating countries.

3. Communication

Promoting local exchanges with the area around the accommodation, exchanges with all over Japan, and friendships between the parties involved in the participating countries

-We support exchanges with local residents and events that promote exchanges between participating countries.

-We will individually arrange excursions to various parts of Japan to promote Japanese experiences and cultural exchanges.

About us

Using the unique network and know-how of Nichireku Co., Ltd.

Nichireku Co., Ltd. was established in 1963 in Kami Town (former Muraoka Town) located in Tajima, northern Hyogo Prefecture. Starting with the opening of the ryokan “Hisaya”, we have expanded our business to accommodation, travel, food and beverage, and real estate.

Especially in the travel business, we specialize in "training camps" for sports clubs and cultural clubs, mainly in the western Japan area, and have built up a track record of handling arrangements for over a thousand groups annually.

In addition to our lodging facility network cultivated through the arrangement of such training camps, we will utilize our know-how in the real estate business to combine private lodging facilities that make effective use of vacant houses and vacant rooms in collective housing. We will strive to provide comfortable housing at reasonable rates during the six months of the Expo, taking into account the living environment that meets the needs and lifestyle of the exposition.

We are here to make your daily life more convenient and enjoyable during your stay.

Our support includes providing valuable information about the local area where you are residing. Depending on your specific needs, we can assist you with various services, such as helping you find the best bus routes to the Expo site, recommending restaurants and food stores that suit your country's lifestyle, arranging home delivery of daily necessities, and even offering cleaning services. Whatever you require, we are dedicated to making your experience as smooth and comfortable as possible.

Promoting Japanese Experiences and Cultural Exchange Across the Country

During your stay in Japan, we strive to make your time here an enriching experience through meaningful international exchanges. One way we achieve this is by facilitating interactions with local residents in the area where you'll be staying. Additionally, we organize exchanges with various host towns throughout Japan, arrange exciting excursions to different parts of the country, and create opportunities for you to immerse yourself in Japanese culture and interact with local communities.

Furthermore, this fall, we are launching the "Retreat Camp (Health Training Camp)" service, which not only helps you recover from the exhaustion of your work commitments but also focuses on improving your overall well-being.

Looking ahead, our aim is to expand the availability of this service to more countries and organizations. To achieve this, we plan to provide detailed information through web services and share service-related updates with the embassies and consulates of each participating country. By doing so, we hope to encourage greater utilization of our offerings and foster even stronger connections between people from all corners of the world and Japan.
